This is an initiative from the CPRE (Campaign to Protect Rural England) regarding changing the definition of the Grey Belt. It is in the form of a petition. This is the current information from them: ¨The current definition is vague and risks opening up Green Belt land to development. We think it's vital to protect and improve Green Belt for food-growing, climate mitigation and nature restoration - as well as its landscape value. The petition has already passed 10,000 signatures, meaning the government must respond. But with 100,000 signatures by 14 November, it will be debated in Parliament.¨

Village Concerns also feels it is important to support this initiative and if you do too, feel free to sign.

Thank you.
