Bcc:

Many of you will have had notification re Hesmonds Stud. This came out about 4pm on Friday, just gone, December 1st. Great timing as usual.

As far as we can tell at the moment, the only changes are amendments to the access on London Road. We are checking the details and the implications and will recommend any response in a further update.

Thank you all for your continuing support. We will keep battling on.

On another note, the Village Concerns Constitution has been amended to reflect that people on our email list are not members but people who wish to be kept informed of Village Concerns activities.
