Bcc:

The Village Concerns blog (http://villageconcerns2016.co.uk/) gives lots of useful information and links concerning the threat of over-development to our village. It's easy and safe to access, just click on the links given below.

1/ There are three new housing articles worth a read under Grist to the Mill:
http://villageconcerns2016.co.uk/category/gristtothemill/

2/ You remember that 'WDC Sustainability Assessment for East Hoathly North(1) – Hesmond Stud', that you were asked to comment on? Well your responses have been sorted and the result can be viewed here:
http://villageconcerns2016.co.uk/planning-applications-of-major-concern/hesmond-stud/

3/ At the bottom of this linked page (step 2) you will find a list of objections. This list is evolving as we study the planning application ((WD/2016/2796/MAO). You might want to use some of these objections when you send in your comments (deadline 13th Jan 2017).

4/ Please encourage others to make their objections (neighbours and family over 18) and get them to periodically view the blog.

Thank you and Happy New Year to you all.
