Bcc: 

Please have a read of Link to Village Concerns Steering Committee Objections.

This has not been submitted yet. We would like to say it is supported by X residents and add those names (not addresses) to the document (in addition to the objectives you may already have sent in). Then we will submit.

From last night's public meeting, X stands at 103. But we want more!

So if you want your name added please simply reply with a YES.

Thank you.
